

Environmental Policy

Basic Policy

Recognizing that its business activities are based on natural capital, the Piolax Group will contribute to the Sustainable Development Goals (SDGs), which will be achieved through the balance of environment, society, and economy.

Slogan

We will grow in harmony with the environment.

Action Guideline

The Piolax Group will work on climate change mitigation and adaptation, environmental protection, and pollution prevention in all its business areas and practice continuous improvement of its environmental performance and environmental management system.

<Major Actions >

- Promote environmental improvement activities in line with the Piolax business policy.
- Advance SDGs initiatives such as diversity, circular economy, social contribution, and biodiversity.
- Disclose information in accordance with the TCFD Recommendations (regarding risks and opportunities of climate change and carbon neutrality).
- Fully comply with environmental laws and regulations and customer requirements.
